MINIMAX

MiniMax Key FOB Vaporizer

Lightweight and high power vapor battery specifically designed for pre-filled 510 thread cartridges. This Sleek ultra lightweight unit looks like a regular car FOB or clicker, but hidden below it's shell is a 500mah battery that runs at an output level of 4 Volts. This is the only battery that solves the cross compatibility issue and works with 99.9% of pre-filled tanks on the market be it glass, plastic, cartomizer, kenthol, quarts, or ceramic heater. The unit comes with a 2 second pre-heat when turned on and makes this minimal sized battery take discretion and concealment to the max!

4V Output Level
500 mAh battery
Micro USB charger
Small, compact size,
fitting on a key chain

MSRP: \$29
