

Vape Hardware 101

A helpful guide for your customers...

Prefilled Pod Systems

These devices are usually rechargeable via USB and all have one main feature in common: prefilled pods. These pods come in a variety of flavors and are designed to plug into their respective devices. Once the pod is empty of e-liquid they are discarded.

Assets

- Easy to use
- Convenient
- Swap between flavors in seconds
- Extremely Popular

Popular Brands

- JUUL
- PHIX
- Myle
- SMPO
- Edge

Refillable Pod System

These devices come with empty pods. Both open and closed pods offer a mouth to lung type draw to emulate the draw from a cigarette. These pods are designed to be refillable which offer an immense amount of flavor options. These best utilize the popular high nicotine salt based eliquid.

Assets

- Easy to use
- Convenient
- Huge variety of flavors
- Refillable

Popular Brands

- Suorin
- Mi-Pod
- SMOK
- Kado
- KandyPens

Regulated Devices

These devices such as the SMOK Mag or iJoy Diamond have a circuit board to regulate the electrical current. The devices also have additional safety features like an auto shutdown in case of an extended accidental firing. These easy to charge devices typically have a digital display that shows voltage, wattage, Ohms, and battery life.

Assets

- Makes for great starter kits
- Internal battery mods charge easily via USB
- Safe and easy to use

Popular Brands

- SMOK
- iJoy
- Wismec
- Joyetech

Unregulated Devices

These devices unregulated devices are for advanced users only. With no circuit board to regulate current these devices are left with minimal safety features. Repairs and customization can be done easily, as they are simple to wire.

Assets

- Max cloud production
- For advanced users only
- Easy to repair and modify

Popular Brands

- VGOD
- Purge Mod Co.
- Glas

Disposable Atomizers

Atomizers like the TFV8 are designed to be used for a few days at a certain wattage before disposing the entire atomizer. These are found in popular tanks like the Big Baby Beast and Uwell Crown III.

Assets

- Convenient and easy to replace
- Perfect for beginners

Popular Brands

- SMOK
- Uwell
- Kangertech

Rebuildable Atomizers

The most customizable vaping experience. The user has a choice of either a tank style or dripper style system with a wide variety of resistances. These atomizers consist of a coil built from wire and cotton. The user must assemble their own atomizer using a variety of screwdrivers, wire cutters, and scissors.

Assets

- Offers the most amount of customization
- For advanced users

Popular Brands

- GeekVape
- Cotton Bacon
- Native Wicks
